- 14) Discuss Planning and Organizing for the District's 100-year anniversary in August 2024. General Manager Sanders provided an overview of the choices the Board can make to plan the event. Broken down to choices of the day of the event and events that can be done prior. The day of the Anniversary is August 12, 2024 which is a Sunday. It was proposed to tentatively plan for August 11, 2024 at the District office. Some things that can be done prior is 1) different letterhead 2) Letters of announcement 3) Notify elected officials 4) Reserve vendors. This will be a continuing agenda item.
- 15) Approve Demands of the Treasurer for July 2023. Motion by Director Neumeister to approve the Demands of the Treasurer as submitted.

Motion: Neumeister Second: Neumeister

Vote: Ayes 5 Hilliker, Jenkins, Johnson, Neumeister, Robak

- 16) CWA Report. Director Hilliker reported that the Board decided to file a lawsuit against LAFCO in regards to the Rainbow MWD and Fallbrook PUD detachment. Identified that the CEQA process was not followed correctly. Dan Denham was selected by the full board as General Manager out of closed session. Excellent knowledge of the Colorado River Issues and has been with the Water Authority 15 years. Quite a bit of closed session.
- 17) Director's Report and Ad Hoc Sub-Committees Reports. Director Johnson talked about the opportunity for an invocation or prayer before our meeting. Stated that many agencies open their meeting with invocations or prayer. Provided a handout as to the historical aspects to prayer and a survey of the agencies that to allow prayer. Requested that the board consider allowing prayer before or after the pledge of allegiance. President Hilliker named Director Johnson and Jenkins to work as an Adhoc committee to refine the direction of the proposal to the Board. They will meet with the General Manager to organize the format or direction that can be presented to the Board.
- 18) Manager's Quarterly Report. The General Manager reported.
 - 1) Well Field Production Current well production averages 22-acre feet per month. The current rehabilitation will provide information on what can be accomplished. After wells 7 and 8 rehabilitation we will be able to analyze the life cycle of each well and if we should change the way we drill and size wells. The future design may bring more wells with a smaller diameter.
 - 2) Revenue Impacts to Reserves Because of the drop in water sales we have utilized reserves more heavily. A point to consider is that even though we budget to utilize reserves we may not always use the budgeted amount. The goal of the reserves is to smooth out revenue shortfalls and to have on hand for emergency expenditures.

Capital Expenditures through July 2023 = 3% or \$13,696 of the budgeted \$517,350. Current water demand for July 2023 was 365.70 AF – WA Purchase 343.3 AF at \$677,432.97 = \$1,973.3 per AF.
